

**NATIONAL PROVIDER IDENTIFIERS
(NPI)**

Format: **Microsoft SQL Server 2005 Database**
Prepared by: [HIPAA Space.com](http://HIPAASpace.com)

INTRODUCTION

Archive contains information about National Provider Identifiers (NPI). All the data has been manually reviewed and cleaned up when possible, however, there is always a chance that some information contains misspelled word or different sort of technical error.

We're working on making the data as good as possible and those errors most likely will be fixed in the new version we provide each month.

DISCLAIMER

HIPAA Space.com is not the primary source of the NPI information and is not an issuer of the NPI numbers. All complaints about data completeness, correctness, and fullness must be forwarded to the official organizations that issue corresponding codes.

However, we, at Hipaaspace.com, are trying to check and clean up the data as much as possible to make the life of our customers easier and more comfortable, so in case you find any error, mistake or just outdated information feel free to report it to Support@HIPAASpace.com. We will do our best to correct the information on our site and in our downloadable files as soon as possible.

CONTENTS OF THE DOWNLOADED BUNDLE

This package is provided in a form of ZIP archive to reduce the size and ease the download process.

The following files are included into the bundle:

1. **npi.mdf** (SQL Server primary data file);
2. **npi_log.ldf** (SQL Server log file);
3. **readme.pdf** (This document).

LICENSE AGREEMENT

Licensee/Company: Entity receiving the Bundle.

Effective Date: Date of delivery of the Bundle to You.

License Term: Perpetual (subject to termination under the SLA).

Licensed Unit: Data Bundle.

Permitted Uses:

1. You may use the Data Bundle for Individual, Commercial, Service Provider and Research and Instructional Use only for the purposes of designing, developing, testing, and running Your applications ("Programs").
2. Subject to the terms and conditions of this Agreement and restrictions and exceptions set forth in the documentation, You may not reproduce and distribute portions of Data Bundle outside Your organization.
3. You may not create, modify, or change the content of, or authorize your licensees to create, modify, or change the content of, Data Bundle itself, or sub-packages, supplementary and code data files that are contained in the Data Bundle.

NPI TABLE LAYOUT

Column names are mostly self-explanatory, in certain cases we added special comments to some fields to make the usage more clear.

General notes:

1. Information about Provider Taxonomy contains 4 data fields: "Healthcare Provider Taxonomy Code_", "Provider License Number_", "Provider License Number State Code_", "Healthcare Provider Primary Taxonomy Switch_". There could be up to 15 Taxonomy entries per each record. Fields for all those entries are designated with the same prefix, but with sequential number following the last underscore.
2. Same considerations as for Taxonomy Codes are applied for Other Provider Identifier. There could be present up to 50 Other Identifiers for each record.

#	Field Name	Data Type	Max Length	Note
1	NPI	int	15	
2	Entity Type	varchar	20	
3	Replacement NPI	varchar	10	
4	Employer Identification Number (EIN)	varchar	9	
5	Is Sole Proprietor	varchar	1	
6	Is Organization Subpart	varchar	1	
7	Parent Organization LBN	varchar	70	
8	Parent Organization TIN	varchar	9	
9	Provider Organization Name (Legal Business Name)	varchar	70
